Skin Rejuvenation

Microdermabrasion **\$75**

This is a safe, non-invasive procedure that stimulates the production of healthy skin cells and collagen, using gentle exfoliation to abrade the surface of the skin, leaving a fresh and invigorated skin surface. Treatment also minimizes wrinkles, scars and sun damage.

Dermaplaning **\$60**

This non-invasive skin resurfacing procedure uses a special blade to gently scrape away the top layer of dead epidermal cells and remove villous facial hair (peach fuzz) that traps excess dirt and oil. The treatment leaves the skin feeling immediately smooth, supple and vibrant.

**Add an enzyme treatment to any skin rejuvenation treatment above for only \$25.*

Eclipse Micropen™ **\$225**

Microneedling, also known as Collagen Induction Therapy, is a minimally invasive procedure that stimulates the body's natural collagen production. New collagen production repairs wrinkles, acne scars, reverses sun damage, improves skin tone and texture, and provides younger looking skin.

**Add oxygen facial to micropen treatment for only \$60.*

Chemical Peels

Customized Chemical Peels **\$75**

We can customize any of our peels to meet the needs of your skin type, concerns and desired results. We can add chemical boosters depending upon your individual needs, such as lactic, salicylic, glycolic and other custom blends.

Power Peel **\$125**

This treatment will combine microdermabrasion or dermaplane with a customized chemical peel.

SkinMedica Illuminize Peel **\$90**

This non-invasive peel tightens the skin and restores a more youthful appearance by improving color, clarity and skin texture.

SkinMedica Vitalize Peel **\$110**

This powerful, yet non-damaging, peel can take years off of your skin's appearance. Results are usually very noticeable after just one peel.

**Add microdermaabrasion or dermaplane treatment to any chemical peel for only \$50.*

Facials

Custom Facial **\$75**

Custom facials are designed to address a variety of needs ranging from premature aging and environmental damage to acne flare-ups and a dull or patchy complexion. We will tailor your facial to treat your specific skin type and condition. Treatments include deep cleaning, extractions, exfoliations and masks.

Teen Facial **\$55**

We've developed a clinical acne facial designed to treat excess oil and superficial blemishes that many teens suffer from during puberty. Best results occur when facials are done on a weekly or bi-weekly basis.

Ageless Facial Package **\$375**

Your choice of 6 custom treatments for the price of 5. Choose from microdermabrasion, dermaplane, custom peel and custom facial. Mix and match as you desire.

**Add microdermabrasion or dermaplane treatment to any custom or teen facial for only \$50.*

Oxygen Facials

Intracutaneous Oxygen Treatment **\$120**

This revolutionary "red carpet" skin care treatment simultaneously infuses moisture, vitamins and anti-oxidants into the skin through hyperbaric oxygen technology, resulting in luminous hydration and visible, age-defying results.

Oxygen Treatment Package **\$350**

Includes 3 oxygen treatments and a custom enzyme.

**Add microdermabrasion or dermaplane treatment to any oxygen treatment for only \$50.*

Injectables

Botox® **\$9 per unit**

Hyperhidrosis treatment for excessive under arm sweating \$650.
